Newt has been to hell and back with his friends.The Glade. The Maze. The Scorch. The inner halls of WICKED. But now he has a burden that caná€™t be shared with Thomas and the othersá€”the Flare. And Newt caná€™t bear the thought of his friends watching him descend into madness as he succumbs to the virus.Leaving only a note, Newt departs the Berg before the Gladers return from their mission into Denver, Colorado. From there, he experiences the gritty nightmare of a life on the streets, running from the infected and those hunting them, until he ends up in the Crank Palace, the last dumping ground of those without hope. Although Newt thought he was running away from his friends to save them from himself, along the way he meets a young mother named Keisha and her son, Dante, who end up saving Newt in a way he could never have imagined.Taking place during the latter events of The Death Cure, Crank Palace tells the story of Newt like never before, from inside his own mind, as he searches for meaning in a life gone horribly wrong. He will try to fulfill a new-found destiny before his path leads to its inevitable conclusioná€”and one last meeting with his best friend. Once there was a world’s end. The forests burned, the lakes and rivers dried up, and the oceans swelled. Then came a plague, and fever spread across the globe. Families died, violence reigned, and man killed man. Next came WICKED, who were looking for an answer. And then they found the perfect boy. The boy’s name was Thomas, and Thomas built a maze. Now there are secrets. There are lies. And there are loyalties history could never have foreseen. This is the story of that boy, Thomas, and how he built a maze that only he could tear down. All will be revealed. A prequel to the worldwide Maze Runner phenomenon, is the book that holds all the answers. How did WICKED find the Gladers? Who are Group B? And what side are Thomas and Teresa really on? Lies will be exposed. Secrets will be uncovered. Loyalties will be proven. Fans will never see the truth coming. Before there was the Maze, there was . With a new boy arriving every thirty days, the group has been in “The Glade” for three years, trying to find a way to escape through the Maze that surrounds their living space (patrolled by cyborg monsters named ‘Grievers’). They have begun to give up hope when a comatose girl arrives with a strange note, and their world begins to change with the boys dividing into two factions: those willing to risk their lives to escape and those wanting to hang onto what they’ve got and survive. —KelseyJmzeteenage boybased on novopen endedconcrete wall30 morePlot summaryPlot synopsis A way how to forget about daily life kind a liked many things concerning graphics and scale of this movie, but more or less I wasn't convinced about this movie until last minute, so don't get too judgmental till you see the movie till very last minute. Actors were very well as well, I liked variety of them and the way how they were messing with me as a viewer. Though many things were very predictable. Overall this movie was a nice way how to run away from daily maze. In particular, I would highlight the graphics, music as well the way how this movie was given, especially with a lot of questions and just a few answers. And yes, I would recommend to watch this movie, and I hope to see the second movie soon...See detailed box office info on IMDbProSuggest an edit or add missing contentYou have no recently viewed pages Book series by James Dashner This article is about the book series. A group of teenagers, who call themselves the “Gladers” are left in a strange place which they call the “Glade”. The Glade is surrounded by four doors, leading to the Maze, that close every night at sundown and open in the morning. Beyond the walls of the Glade is the ever-changing Maze, populated by horrifying, biomechanical creatures, called Grievers. Every month, a newcomer, nicknamed “Greenie”, joins the Gladers, sent by a lift they call the Box. Each newcomer has all past memories (except language and other common things) wiped out. The only thing that they remember is their name. They are watched by mechanical beetles, called ‘beetle blades’ which belong to their ‘creators’. Each beetle blade has the word “WICKED” stamped across its back. The ultimate goal of the Gladers is to find a way out of the Maze. To do so, certain Gladers called “Runners” venture into the Maze every day, to map it in an attempt to find a pattern in the Maze that would lead them to find an exit. The main character, Thomas, arrives at the Glade. Shortly thereafter, a girl (Teresa) is sent up through the Box, arriving in a coma, and bringing the message: Everything is going to change. She bears a note saying “She’s the last one. Ever.” Thomas becomes an object of reverence, suspicion, and great curiosity to the Gladers due to his ties to all of the strange happenings in the Glade, fueled greatly after he becomes the first to survive a night inside the Maze. Together with new friends, such as Chuck (the second-newest newbie), Newt (second in command of the Gladers), and Minho (Keeper of the Runners), he begins to solve the mystery of the Maze and search for a way out. Thomas leads his group to make it out of the maze and find a way back home and defeat WICKED. The Scorch Trials Main article: The Scorch Trials The Scorch Trials is the second book released in the series, on September 18, 2010. The Gladers thought that getting through the Maze was it. They were wrong. The Maze was only the beginning, and now WICKED demands they undergo the Scorch Trials, in which they must cross The Scorch—a barren wasteland left burned and scarred by violent sun flares. What’s worse, the denizens of The Scorch are being consumed by The Flare, corrupting their very minds until they lose all that makes them human. The game is set again, and WICKED controls the board, but if the Gladers want another chance at freedom, they must play WICKED’s game and survive The Scorch Trials. The Death Cure Main article: The Death Cure The Death Cure is the third book released in the series, on October 11, 2011. In the third book of “The Maze Runner” Series, Thomas is locked up in solitary confinement for four weeks. When he is released, and Assistant Director Janson (Rat Man) reveals to him and the other subjects (including Group B) that there is no cure for the Flare, but that most of the Gladers and Group B are immune. He warns them that many people in the outside world hate them because of their unnatural resistance to the Flare, and that if they escape they will most likely be in more danger. Later, all Gladers and Group B members’ memories are restored and they escape. Thomas, Newt, and Minho refuse restoration and they later escape with Jorg and Brenda. They then go to a city and have WICKED’s devices in their brains disabled. They join forces with “Right Arm”, an organization fighting against WICKED. The moral may be that cooperation and working as a team is the most important factor. The Kill Order Main article: The Kill Order The Kill Order is the fourth book released in the series, on August 14, 2012. It is the first novel in narrative order, set prior to the events of The Fever Code and 13 years before the events in The Maze Runner.[5] It is followed in narrative order by The Fever Code. Of the novel, Dashner stated that he wanted to expand the world, but not focus on the main characters of the main Maze Runner trilogy.[6] He also stated that he had originally planned to write a prequel for the series, but that the plans did not become official until he had completed the third book in the trilogy.[7] Before WICKED is formed, before the Glade is built, and before Thomas enters the Maze, solar flares hit the earth and mankind was ravaged by disease. Mark and Trina were there when it happened, and survived. Now a disease of rage and lunacy rages across the eastern United States, and there’s something suspicious about its origin and it’s mutating, and all evidence suggests that it will bring humanity to its knees. Mark and Trina are convinced there’s a way to save those left living from descending into madness.[citation needed] The Fever Code Main article: The Fever Code The Fever Code is the fifth book released in the series, on September 27, 2016. It is the second prequel and the fifth installment of The Maze Runner series. It is the second book in narrative order, preceded by The Kill Order and followed by The Maze Runner. The book is set in between the events of The Kill Order and immediately before The Maze Runner. The novel is written from the various points of view of “The Gladers”. The book primarily focuses on the training that Thomas and the others undergo before being sent into the Maze, however, it also explores the relationships between the Gladers before they underwent “the Swipe” that suppressed their memories, describes “the Purge” that is briefly mentioned in The Death Cure, and the lives of the Gladers before Thomas’ insertion into the Maze, since during the events in the book he is working for WICKED. This book gives a background of the series, providing the reader with information they have been asking themselves. The book ends with the final moments before Thomas enters the Box, when he is betrayed and sent into the Maze at the beginning of The Maze Runner. Other releases The Maze Runner Files The Maze Runner Files is a companion book to The Maze Runner series. It was released on 1 January 2013 as an e-book. It is 50 pages long. The book is divided into three parts: Confidential Files, Recovered Correspondence, and Suppressed Memories. It contains information about the Flare, WICKED and some of the Gladers. It also reveals events such as Thomas and Teresa’s first conversation, Minho’s Phase Three Trial, Frypan’s past, e-mails between WICKED correspondents, and more. Crank Palace Crank Palace is a novella, released on August 25, 2020. The story is centered on the character Newt’s place during the events of The Death Cure. It was first released as an audiobook on August 25, 2020, while the print copy and ebook version was released on November 23 of the same year. Characters Thomas (books 1–3, 5, minor appearance in book 4) is one of the creators of the Maze along with Teresa Agnes, and later a Group A Glader in books 1–3. Gally (books 1, 3, 5) is a Group A Glader who was Thomas’s first enemy in the Glade. He serves as the main antagonist for Thomas in the first book, however, after being presumed dead for the second book, comes back to become an ally in the third. Gally is named after Galileo Galilei. He was presumed to be killed by a lightning storm in the scorch trials. His subject number is A13. Chancellor Ava Paige (books 1–3, 5) is the highest-ranking official of WICKED. She initially opposed the use of Immunes for the Trials and also was one of the two people to oppose Thomas’ death. However, she infected Chancellor Anderson with the Flare and forced Thomas into the Maze after Chancellor Anderson proposed to end the trials after the Maze Trials were finished. All epilogues of the three books consist of an e-mail written by Dr. Paige to her associates. Assistant Director Janson (books 2–3) nicknamed Rat Man in book 2, is the highest-ranking official in WICKED after Chancellor Paige. Jorg (books 2–3, 5) is a pilot for WICKED; he is later assigned by WICKED to work undercover as the leader of a group of Cranks in the Scorch. Brenda (books 2–3, 5) is a character that the members of Group A and B assumed to be a Crank. Eventually, they discover that she is an Immune. Aris Jones (books 2–3, 5) is the only male member in a group of female teenagers called Group B. He is named after Aristotle. His subject number is B1, and his title is “the partner”. Rachel (mentioned in book 2, 5) is a member of Group B and the best friend of Aris Jones, with whom she had a telepathic connection. Her subject number is B2. Harriet (books 2–3) is one of the leaders of Group B. She is named after Harriet Tubman. Her subject number is B3. Trina (book 4) is one of the protagonists in The Kill Order; She was also the love interest of Mark. Lana (book 4) is a former military nurse and is one of the protagonists who survived the solar flares in The Kill Order. She was killed by Alec after Cranks fatally injured her. Critical reception Book retailer Barnes & Noble included The Maze Runner book as part of its showcasing of new writers for the end of 2009 and the beginning of 2010. Kirkus Reviews wrote, “Hard to put down, this is clearly just a first installment, and it will leave readers dying to find out what comes next”. Jessica Harrison of the Deseret Morning News labeled The Maze Runner as “a thrilling adventurous book for kids ages 13+ that will get readers’ hearts pumping and leave them asking for more.” She noted that it “starts out a bit slow” but as it matched Thomas’s confusion and picked up pace as he became more accustomed, she wrote that “it’s almost as if Dashner is easing the reader into what becomes a fast-paced, nonstop action.” However, she thought the “only drawback” was the “fictionalized slang” that although it “feels realistic and fits with his characters, it gets old pretty fast. On the plus side, however, it’s used so often that the reader almost becomes desensitized and learns to ignore it.
